Profile

Full-Stack Developer & IT Management Professional skilled in React.js, Node.js, PHP, Python, and SQL. Delivered 20+ web and mobile apps, including dashboards and e-commerce platforms, improving efficiency by 25%. Managed IT infrastructures with 99% uptime and secured data for multiple clients. Led projects from concept to deployment, collaborating with cross-functional teams to meet deadlines.

Education

Associate of Applied Science, *EFET Meknès*
Aug 2022 – Jul 2024 | Meknès
- Trained in IT systems and application development.
- Built and managed storage, sales, and payment systems.
- Gained skills in web & mobile development, databases, and networking.

Professional Experience

Freelance Full-Stack Developer, *Self-Employed*
May 2021 – Present | Remote
- Developed 10+ web and mobile applications for international clients using React.js, Node.js, PHP, Python, and SQL, including dashboards, e-commerce platforms, and business tools.
- Optimized front-end performance and secured back-end APIs, reducing load times by up to 40%.
- Integrated third-party services and APIs to extend functionality and automate workflows.
- Managed full project lifecycle—from requirements gathering and coding to testing, deployment, and support—ensuring on-time delivery and client satisfaction.
- Collaborated with remote teams using Git/GitHub for version control and ensured responsive, cross-platform designs for 2,000+ daily users.

Full-Stack Development Intern, *LiadTech*
May 2025 – Jun 2025 | Remote
- Developed a CRM app with the MERN stack for 500+ users, building frontend/backend features including user authentication, role-based access, and interactive dashboards.
- Optimized RESTful APIs and managed database operations with Prisma ORM, improving workflow efficiency by 20%.
- Reviewed code, debugged issues, and planned features with senior developers, reducing post-release errors by 25%.
- Applied Agile practices to shorten development cycles and deliver features 15% faster.

IT Management Intern, *Ajp Valencia*
Jul 2024 – Aug 2024 | Meknes, Morocco
- Assisted with IT infrastructure support, including network configuration, system maintenance, and hardware troubleshooting, improving system uptime by 15%.
- Contributed to IT strategies and project implementation, streamlining workflows and reducing task completion time by 10%.
- Monitored system performance, handled troubleshooting requests, and secured data with regular backups, ensuring 99% data integrity.
- Worked with senior IT staff to document IT processes and improve operational workflows, reducing system downtime by 10%.
